### DETAILED ACTION

Examiner acknowledges receipt of petition, remarks and request for extension of time filed 03/31/04 and amendment and remarks filed 11/28/03. New claims 57-86 are pending.

#### *Claim Rejections - 35 USC § 103*

1. Claims 57-86 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Farinas et al. (US 5,906,430).

Applicants argue that Farinas uses heat to create supersaturation and that and that in the instant case chemical reaction creates a liquid or solid non-crystalline carrier matrix.

2. Applicants' arguments filed 11/28/03 have been fully considered but they are not persuasive.

Applicants' liquid that contains the active agent is a carrier matrix. In Farinas, the carrier is also liquid or gel or solvent that is capable of dissolving and dispersing the active agent. It is the active agent of Farinas that is in a supersaturated state. In any supersaturated condition, there is the presence of solvent that does not interact with the ingredients to form a solid block devoid of solvent. It is respectfully noted that the rejection on record is not one of anticipation, but rather one of obviousness. The reliance on obviousness rejection over Farinas is the scientific fact that a heat step would generate chemical reaction. Examiner understands the carrier matrix to be what it is, a carrier and in Farinas, the carrier is a solvent or gel or liquid (column 5, lines 39-49). It is also noted that claim 57(e) requires that the biologically active agent saturate the carrier starting material. The claims do not require that the biologically active agent remain in solution.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1615

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
